

RE: Summer School 2021

The Indiana Department of Education (DOE) has released information regarding the 2021 Summer School Program. All courses offered by the IndVA will be reimbursed at 100% (if supported by the appropriation).

The Indiana Virtual Academy (IndVA) will be offering online summer school academic courses from June 7 to July 30, 2021. Please refer to our website for a complete list of courses.

The IndVA will also be offering online Physical Education (PE) semester one from May 10 to July 2, 2021, and semester two from July 5 to August 27, 2021. PE is also eligible for DOE reimbursement. Our online PE course is designed to provide students with the basic skills and information needed to begin a personalized exercise program.

Registration for all courses will open on April 5, 2021. For PE courses, registration closes on May 7 (for 1<sup>st</sup> semester) and July 2 (for second semester). For all other courses, registration closes on June 4.

Benefits of Participating in the IndVA Summer School Program are:

- No DOE Summer School paperwork for your district to file for students with the IndVA. All DOE reporting is handled by the IndVA.
- No overhead incurred from keeping your building open, aside from proctoring final exams.
- No non-reimbursable administration and support costs.
- No upfront costs. You are not billed until after DOE reimbursement is received.
- The IndVA has two pace deadlines that must be met by students. If a student is not on pace by these deadlines the student is dropped from the course and will not be included in the final count for which your corporation is billed.
- The IndVA does not charge your students any fees if your district participates.
- The IndVA uses curriculum that meets Indiana Standards and is taught by licensed Indiana instructors.
- The IndVA is NCAA approved for non-traditional coursework.

For the IndVA to accept your students for summer school at no cost to the student, you will be required to sign and return the agreement form. Please note that all final exams will need to be taken in a proctored setting with supervision from your school. We will also need the name/s and email address/es of your high school guidance counselors who will be approving the registrations for the students who register.

Students from your corporation who register for an IndVA course will be accepted if you have agreed to pay the difference per student/per semester course for costs incurred by the IndVA. The cost per student/semester course that was billed to participating corporations for Summer School 2016 was \$15, Summer School 2017 was \$21, and Summer School 2018 for standard courses was \$35 and \$27 for credit recovery courses, and Summer School 2019 for standard courses was \$36.10 and \$28.50 for credit recovery. Summer School 2020 was free to schools as the DOE reimbursed in full. If the DOE reimburses at 100% for Summer School 2021 there will be no cost to your corporation.

If your corporation does not participate in the summer school reimbursement program, summer school courses are \$190.00 per student/per semester course for the standard course catalog and \$150.00 per student/per semester course for the credit recovery catalog.

Please complete and return the agreement as soon as possible as registration opens on April 5. You can do so by mail, fax, or scan and email. Flyers and other information for you to use to notify your students of the program are available on our website [www.indva.com](http://www.indva.com) under "Who We Help">"Schools">"Forms and Agreements".
